## Details

The CY water filter is designed to fit inside the Liff NP1, NDL2 or NCP1 10" water filter cartridge housings. Filtration efficiency of 99.99% at 0.9 micron. The CY removes particular matter, bacteria, cysts and turbidity to a high level of efficiency from water. With a flow rate of 3-5 lpm, it is recommended that the Liff CY is fitted closest to where the filtered water will be used.

**CHANGING THE FILTER CARTRIDGE.** It is recommended that CY water filter cartridges are changed at least every 6 months, but on occasions it may be necessary to change the water filter cartridge more frequently.
